Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences

Jacob Cohen, Patricia Cohen

Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences Jacob Cohen, Patricia Cohen

This classic text on multiple regression is noted for its nonmathematical, applied, and data-analytic approach. Readers profit from its verbal-conceptual exposition and frequent use of examples. The applied emphasis provides clear illustrations of the principles and provides worked examples of the types of applications that are possible. Researchers learn how to specify regression models that directly address their research questions. An overview of the fundamental ideas of multiple regression and a review of bivariate correlation and regression and other elementary statistical concepts provide a strong foundation for understanding the rest of the text. The third edition features an increased emphasis on graphics and the use of confidence intervals and effect size measures, and an accompanying CD with data for most of the numerical examples along with the computer code for SPSS, SAS, and SYSTAT. Applied Multiple Regression serves as both a textbook for graduate students and as a reference tool for researchers in psychology, education, health sciences, communications, business, sociology, political science, anthropology, and economics. An introductory knowledge of statistics is required. Self-standing chapters minimize the need for researchers to refer to previous chapters.

From reader reviews:

Nancy Hedrick:

Why don't make it to become your habit? Right now, try to prepare your time to do the important action, like looking for your favorite book and reading a e-book. Beside you can solve your long lasting problem; you can add your knowledge by the publication entitled Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences. Try to make the book Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences as your buddy. It means that it can being your friend when you really feel alone and beside that of course make you smarter than previously. Yeah, it is very fortunated for you personally. The book makes you a lot more confidence because you can know everything by the book. So , let me make new experience as well as knowledge with this book.

Shawn Jones:

Spent a free time to be fun activity to do! A lot of people spent their spare time with their family, or their very own friends. Usually they doing activity like watching television, going to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you wish to something different to fill your personal free time/ holiday? Might be reading a book may be option to fill your cost-free time/ holiday. The first thing you ask may be what kinds of publication that you should read. If you want to try out look for book, may be the guide untitled Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences can be great book to read. May be it is usually best activity to you.

Edith Stewart:

Is it an individual who having spare time in that case spend it whole day by watching television programs or just telling lies on the bed? Do you need something new? This Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences can be the solution, oh how comes? It's a book you know. You are therefore out of date, spending your time by reading in this completely new era is common not a nerd activity. So what these guides have than the others?

Charles Towns:

A lot of e-book has printed but it takes a different approach. You can get it by online on social media. You can choose the very best book for you, science, comic, novel, or whatever by simply searching from it. It is known as of book Applied Multiple Regression/Correlation Analysis for the Behavioral Sciences. You can add your knowledge by it. Without causing the printed book, it can add your knowledge and make an individual happier to read. It is most critical that, you must aware about e-book. It can bring you from one destination to other place.
