Foundations of Materials Science and Engineering

William Smith, Javad Hashemi

Foundations of Materials Science and Engineering William Smith, Javad Hashemi

Smith/Hashemi's *Foundations of Materials Science and Engineering*, 5/e provides an eminently readable and understandable overview of engineering materials for undergraduate students. This edition offers a fully revised chemistry chapter and a new chapter on biomaterials as well as a new taxonomy for homework problems that will help students and instructors gauge and set goals for student learning. Through concise explanations, numerous worked-out examples, a wealth of illustrations & photos, and a brand new set of online resources, the new edition provides the most student-friendly introduction to the science & engineering of materials.

The extensive media package available with the text provides Virtual Labs, tutorials, and animations, as well as image files, case studies, FE Exam review questions, and a solutions manual and lecture PowerPoint files for instructors.

From reader reviews:

Troy Jones:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider when those information which is inside the former life are difficult to be find than now is taking seriously which one works to believe or which one the resource are convinced. If you obtain the unstable resource then you understand it as your main information you will see huge disadvantage for you. All of those possibilities will not happen in you if you take Foundations of Materials Science and Engineering as your daily resource information.

Kenneth Poor:

Playing with family in a park, coming to see the coastal world or hanging out with buddies is thing that usually you might have done when you have spare time, after that why you don't try thing that really opposite from that. 1 activity that make you not feeling tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love Foundations of Materials Science and Engineering, you could enjoy both. It is great combination right, you still would like to miss it? What kind of hang-out type is it? Oh can occur its mind hangout men. What? Still don't buy it, oh come on its known as reading friends.

Jo Villegas:

Is it an individual who having spare time then spend it whole day simply by watching television programs or just lying on the bed? Do you need something new? This Foundations of Materials Science and Engineering can be the solution, oh how comes? A book you know. You are consequently out of date, spending your free time by reading in this fresh era is common not a geek activity. So what these publications have than the others?

Maryellen Tilley:

What is your hobby? Have you heard which question when you got college students? We believe that that problem was given by teacher with their students. Many kinds of hobby, Everybody has different hobby. And you know that little person such as reading or as studying become their hobby. You need to know that reading is very important as well as book as to be the thing. Book is important thing to include you knowledge, except your own teacher or lecturer. You find good news or update about something by book. Different categories of books that can you choose to use be your object. One of them is actually Foundations of Materials Science and Engineering.
