Attacking Terrorism: Elements of a Grand Strategy

Attacking Terrorism: Elements of a Grand Strategy

The definition and understanding of "terrorism" is in a state of unprecedented evolution. No longer are acts of terrorism rare and far-flung. Following the horrendous attacks on the World Trade Center and the Pentagon, U.S. citizens have had their eyes opened to a new world where this nightmare stalks the daily news and is never far from consciousness.

Attacking Terrorism brings together some of the world's finest experts, people who have made the study of this rising menace their life's work, to provide a comprehensive picture of the challenges and opportunities of the campaign against international terrorism. Part one, "The Nature of Terrorism," provides an overview and foundation for the current campaign, placing it within the political and historical context of previous threats and responses. Part two, "The Responses to Terrorism," looks at the range of policy instruments required in an effective strategy against terrorism.

The contributors to this volume bring finely honed analyses and nuanced perspectives to the terrorist realities of the twenty-first century?history, analyses, and perspectives that have been too often oversimplified or myopic. They bring a new depth of understanding and myriad new dimensions to the crisis of terrorism. And they reach into aspects of counterterrorism that broaden our grasp on such important tools as diplomacy, intelligence and counterintelligence, psycho-political means, international law, criminal law enforcement, military force, foreign aid, and homeland security, showing not only how these tools are currently being employed but how often they are being underutilized as well.

Attacking Terrorism demonstrates that there are no easy answers?and that the road toward victory will be long and arduous, frightening and dangerous?but as Audrey Kurth Cronin states in her introduction, "As the campaign against international terrorism unfolds, a crucial forward-looking process of strategic reassessment is under way in the United States, and this book is intended to be a part of it."

From reader reviews:

Jose Jones:

Information is provisions for folks to get better life, information presently can get by anyone with everywhere. The information can be a understanding or any news even a problem. What people must be consider if those information which is from the former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you obtain the unstable resource then you buy it as your main information there will be huge disadvantage for you. All those possibilities will not happen throughout you if you take *Attacking Terrorism: Elements of a Grand Strategy* as the daily resource information.

Stephanie Armstrong:

Reading a guide tends to be new life style in this era globalization. With looking at you can get a lot of information that can give you benefit in your life. Having book everyone in this world may share their idea. Guides can also inspire a lot of people. A great deal of author can inspire their particular reader with their story or their experience. Not only the storyline that share in the textbooks. But also they write about the knowledge about something that you need example. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors these days always try to improve their expertise in writing, they also doing some investigation before they write for their book. One of them is this *Attacking Terrorism: Elements of a Grand Strategy*.

Wade Diaz:

In this age globalization it is important to someone to get information. The information will make professionals understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of recommendations to get information example: internet, newspapers, book, and soon. You can view that now, a lot of publisher that print many kinds of book. The particular book that recommended to you is *Attacking Terrorism: Elements of a Grand Strategy* this publication consist a lot of the information on the condition of this world now. This particular book was represented how does the world has grown up. The terminology styles that writer require to explain it is easy to understand. The writer made some investigation when he makes this book. Honestly, that is why this book suitable all of you.

William Bottoms:

As a scholar exactly feel bored in order to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just little students that has reading's heart or real their passion. They just do what the professor want, like asked to the library. They go to there but nothing reading really. Any students feel that reading is not important, boring and also can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. Therefore this *Attacking Terrorism: Elements of a Grand Strategy* can make you experience more interested to read.
