Coaching the Threads of Reading is the "how to" book that explores specifically what skills and strategies coaches should be helping teachers develop in K-12 classrooms. Not only does the book describe what effective reading instruction looks like at all levels from primary through high school, but it provides important suggestions on how to help teachers focus instruction and gradually move to independence and instructional self-confidence. Teacher reflection surveys are included to help coaches guide teacher reflection and develop action plans for professional growth. This book is part of the Threads of Reading Series.
