Candy is a wolf girl who was discovered in the forests of North Pennsylvania. She's been taken to a treatment center where she is learning to talk and be around regular people. But Candy has a past no one can understand. She was raised in isolation before being released into the wild.

Jason is working with Candy to teach her how to converse and act around people. Candy is making incredible progress and soon learns to converse with the staff at the treatment center. The team responsible for Candy decides it's time to take her out into the world to see how she reacts.

Candy is taken to the forest where she lived and she begins to blossom into a beautiful young woman. Jason cares for her and wants to protect Candy from the human beasts who would take advantage of his little wolf girl. But first he has to get Candy to open up and tell him about the horror she endured as a young child. And now the staff learns the real reason Candy fascinates the federal government. Will they be able to let her fulfill her destiny and protect the wolf girl at the same time?
