To competently serve families, social work students must understand the theories and issues surrounding family violence. This innovative textbook comprehensively discusses three types of family violence: child abuse and maltreatment, intimate partner violence, and elder abuse.

Discussions on assessments and interventions are provided for the adult victims of family violence, adult survivors of child abuse, child witnesses of domestic violence, adolescent victims of dating violence, elderly victims, and perpetrators of abuse. Assessment procedures and evidence-based treatments are also discussed. This book also covers a broad range of vulnerable populations and addresses their needs for particular services, legislative action, and strategies for effective intervention. The book meets the criteria of the Council on Social Work Education with its focus on ethics, populations-at-risk, and diversity.
