Harry Boyle's genius IQ has failed him. The alpha geek stupidly followed relationship advice from Inventory's resident evil mastermind—eighty-seven year old Betty. That's how he ended up trapped in an abandoned mine waiting to be rescued by his high school crush. The same crush he still loves. The one he's come back to town to claim.

Magenta Fraser doesn't want to be claimed—what is this? The Stone Age? The sarcastic Goth with a fondness for hitting first and asking questions later has been avoiding Harry. He's her Kryptonite. Around him she loses her badass powers and becomes a pathetic giggling girl. As the local caving expert, she has no choice but to rescue the man. But that doesn't mean she has to talk to him. Or touch him. Or do any of the other X-rated things that keep popping into her mind. All she has to do is resist him, rescue him and then run from him—before he uncovers her secret.
