Are you having trouble picking the topic for your book? Maybe you've finished writing your book, but you've got questions about the mechanics of listing it on Amazon - How do you write a compelling description? How do you know you've got the right cover? What are keywords anyway, and why do they matter?

Have you just published a new book to the Kindle store, and found yourself wondering what's next?

You aren't alone.

Publishing your first book or even your tenth book on Kindle is a daunting task. As an Indie author you're going it alone, or with limited help, and that means everything about your book is left up to you. You need to choose a topic that's going to sell; write a compelling story that keeps readers flipping the pages; make sure it's edited properly - typo free, formatted for a variety of Kindle devices and other e-readers. And, then, there's the matter of creating book covers, writing descriptions, choosing keywords, and let's not forget about getting reviews.

Being an Indie Author can be scary at times. That's what this book is all about, helping you through the maze of publishing your book and getting it discovered on Kindle.

As an added bonus, I'm including interviews with four experts on Kindle Publishing.

- Buck Flogging
- Steve Scott
- Martin Crosbie
- Rob Parnell
