C# 6.0 Cookbook Jay Hilyard, Stephen Teilhet

Completely updated for C# 6.0, the new edition of this bestseller offers more than 150 code recipes to common and not-so-common problems that C# programmers face every day. More than a third of the recipes have been rewritten to take advantage of new C# 6.0 features. If you prefer solutions to general C# language instruction and quick answers to theory, this is your book. *C# 6.0 Cookbook* offers new recipes for asynchronous methods, dynamic objects, enhanced error handling, the Roslyn compiler, and more.

Here are some of topics covered:

- Classes and generics
- Collections, enumerators, and iterators
- Data types
- LINQ and Lambda expressions
- Exception handling
- Reflection and dynamic programming
- Regular expressions
- Filesystem interactions
- Networking and the Web
- XML usage
- Threading, Synchronization, and Concurrency

Each recipe in the book includes tested code that you can download from oreilly.com and reuse in your own applications, and each one includes a detailed discussion of how and why the underlying technology works. You don't have to be an experienced C# or .NET developer to use *C# 6.0 Cookbook*. You just have to be someone who wants to solve a problem now, without having to learn all the related theory first.

From reader reviews:

Donna Cook:

As people who live in the actual modest era should be up-date about what going on or details even knowledge to make these individuals keep up with the era which can be always change and move forward. Some of you maybe will update themselves by studying books. It is a good choice for you personally but the problems coming to an individual is you don't know what kind you should start with. This C# 6.0 Cookbook is our recommendation to help you keep up with the world. Why, because book serves what you want and need in this era.

Diane Reid:

Now a day those who Living in the era exactly where everything reachable by match the internet and the resources inside it can be true or not require people to be aware of each data they get. How a lot more to be smart in obtaining any information nowadays? Of course the answer then is reading a book. Reading a book can help people out of this uncertainty Information mainly this C# 6.0 Cookbook book because book offers you rich information and knowledge. Of course the details in this book hundred percent guarantees there is no doubt in it as you know.

Christopher Williams:

Precisely why? Because this C# 6.0 Cookbook is an unordinary book that the inside of the reserve waiting for you to snap the item but latter it will zap you with the secret the idea inside. Reading this book adjacent to it was fantastic author who all write the book in such awesome way makes the content on the inside easier to understand, entertaining method but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any more or you going to regret it. This amazing book will give you a lot of gains than the other book have such as help improving your ability and your critical thinking approach. So , still want to hold off having that book? If I have been you I will go to the book store hurriedly.

Matthew Seifert:

Playing with family in the park, coming to see the water world or hanging out with pals is thing that usually you could have done when you have spare time, after that why you don't try matter that really opposite from that. One particular activity that make you not sense tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love C# 6.0 Cookbook, you may enjoy both. It is good combination right, you still desire to miss it? What kind of hangout type is it? Oh can happen its mind hangout fellas. What? Still don't have it, oh come on its named reading friends.
