Speed Writing - the 21st century alternative to shorthand Most people need a note taking system for work or study but few people have the time or inclination to spend a year or two learning shorthand. BakerWrite Speed Writing enables you to learn a new system in a matter of hours and become proficient within weeks. This book is laid out in 6 easy to follow lessons, that take about an hour each. Practical guided exercises, with full answers, in each chapter and each session is rounded off with a dictation passage. Save time and become more efficient taking dictation, in meetings, on the telephone, in lectures or interviews. No strange squiggles to learn - just different ways to use the letters you already know. Your notes will be easy to transcribe. Enhance your career with a new skill. Save time by reducing your written text by an average of 33% - often more. Adapt the system to suit your needs. Free downloadable dictionary and workbook, available from <http://www.UoLearn.com> A terrific opportunity to save time and change your working practises - for the better! What do people think of this speed writing system? "BakerWrite is the easiest shorthand system I have come across. Having studied all the major shorthand systems and even other speed writing courses, I find BakerWrite a sheer delight." "I will use this system all the time." "Your system is so easy to learn and use." "I will recommend this course to everyone who takes notes." "I am 51 years old and have been a secretary more or less since I left school. I took the requisite Pitmans shorthand course whilst at school and have never been able to understand it, all those squiggles and lines. I have used my own speed writing version of words through the years and have managed to get by (as long as I dealt with the notes as soon as I had written them and the dictator wasn't too quick - so it was half memory and half being able to read my own shorthand version). But now, everything is so clear and makes complete sense. I take your book on the train every morning and even after the first reading it completely made sense and I could even remember most of what I had read in the first chapter and believe me my memory at retaining new info is not as it used to be. Even when I was reading your abbreviations I was able to see what they were in a lot of cases before I checked the meaning. I am thoroughly enjoying learning a new "skill" from a book that is so simple to understand and I have already started to implement my new dictionary of words when taking notes. A great big thank you for developing a system that is so easy to understand and completely workable and I looking forward to "showing off" my new skills when taking notes (which I will actually be able to understand) at the next board meeting."
