Trauma and Orthopaedic Classifications: A Comprehensive Overview

Trauma and Orthopaedic Classifications: A Comprehensive Overview

This illustrated textbook is an essential and invaluable guide to young clinicians and researchers of Trauma and Orthopaedics, reporting all classification systems which are currently utilised in the clinical setting. It includes classifications relevant to both Elective Orthopaedic Practice and Orthopaedic Trauma.

Clear graphic illustrations accompany the description of all different classification schemes in a comprehensive manner, together with a structured presentation of existing clinical evidence. In this manner each chapter of the different anatomical sites and pathologies assists the decision making of the readers regarding treatment strategy as well as informed consent of their patients. It is envisaged that this textbook will be a point of reference not only to the surgeons in training (residents) but also to senior surgeons and academic clinicians.
