Who Is FastTrackActionPlans?

FastTrackActionPlans is a division of Quantitative Technologies, a Quantitative Algorithmic and Analytics development firm for hedge funds and private equity for the past 15 years. This is our side project to bring some of that "tech" goodness to the public.

This project started when we wanted to teach our children, friends and family how to invest and trade stocks. We didn't know which books were still relevant in today's market conditions. So being Quants, we analyzed the top books on investing to figure out which were still worth teaching. So after extensive testing and analysis, these are the books and materials we teach our own children, family and friends with.
