Saving Strangers: Humanitarian Intervention in International Society Nicholas J. Wheeler

The extent to which humanitarian intervention has become a legitimate practice in post-cold war international society is the subject of this book. It maps the changing legitimacy of humanitarian intervention by comparing the international response to cases of humanitarian intervention in the cold war and post-cold war periods. While there are studies of each individual case of intervention-in East Pakistan, Cambodia, Uganda, Iraq, Somalia, Rwanda, Bosnia and Kosovo-there is no single work that examines them comprehensively in a comparative framework.
