**Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide** Leland H. Hemming

The first volume ever to cover all aspects of the subject, *Architectural Electromagnetic Shielding Handbook* provides the practicing architect/engineer with a comprehensive guide to electromagnetic shielding. This practical handbook is a one-stop source for every form of shielding enclosure now used in commercial and government test laboratories, communication and computer centers, and electromagnetic hardened facilities designed to prevent electromagnetic interference (EMI) from reaching either a sensitive piece of equipment or an unauthorized agency.

Additional features include:

- extensive supporting information on penetrations such as doors, vents, piping, and electromagnetic filters for each type of shielding
- complete descriptions of modular, welded, and architectural forms of shielding as well as design checklists for shielded enclosure installation
- detailed descriptions of performance specifications and methods of testing necessary to prove performance

Now you can have practical design and manufacturing techniques for solving ESD problems associated with sophisticated equipment used in a home or office environment. This book takes the mystery out of ESD by showing how it is generated and how it affects electronic devices, such as integrated circuits. It provides practical guidelines and the rationale on how ESD solutions can work for you.

### **From reader reviews:**

#### **Louise Hawkins:**

Nowadays reading books are more than want or need but also become a life style. This reading habit give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The information you get based on what kind of book you read, if you want get more knowledge just go with knowledge books but if you want really feel happy read one using theme for entertaining such as comic or novel. The Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide is kind of reserve which is giving the reader capricious experience.

#### **Beth Ritchey:**

Do you have something that you prefer such as book? The publication lovers usually prefer to pick book like comic, limited story and the biggest an example may be novel. Now, why not striving Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide that give your fun preference will be satisfied by reading this book. Reading behavior all over the world can be said as the means for people to know world a great deal better then how they react in the direction of the world. It can't be claimed constantly that reading behavior only for the geeky man but for all of you who wants to possibly be success person. So , for all you who want to start reading through as your good habit, you could pick Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide become your own personal starter.

#### **Theresa Walker:**

A lot of guide has printed but it takes a different approach. You can get it by online on social media. You can choose the very best book for you, science, amusing, novel, or whatever by simply searching from it. It is identified as of book Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide. Contain your knowledge by it. Without leaving the printed book, it could possibly add your knowledge and make an individual happier to read. It is most important that, you must aware about e-book. It can bring you from one location to other place.

#### **Julie Bailey:**

What is your hobby? Have you heard which question when you got scholars? We believe that that problem was given by teacher for their students. Many kinds of hobby, All people has different hobby. So you know that little person just like reading or as looking at become their hobby. You need to know that reading is very important and also book as to be the matter. Book is important thing to add you knowledge, except your personal teacher or lecturer. You find good news or update regarding something by book. Different categories of books that can you decide to try be your object. One of them is Architectural Electromagnetic Shielding Handbook: A Design and Specification Guide.
