Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science)

This workshop was a continuation of the PCRCW '94 workshop that focused on issues in parallel communication and routing in support of parallel processing. The workshop series provides a forum for researchers and designers to exchange ideas with respect to challenges and issues in supporting communication for high-performance parallel computing. Within the last few years we have seen the scope of interconnection network technology expand beyond traditional multiprocessor systems to include high-availability clusters and the emerging class of system area networks. New application domains are creating new requirements for interconnection network services, e.g., real-time video, on-line data mining, etc. The emergence of quality-of-service guarantees within these domains challenges existing approaches to interconnection network design. In the recent past we have seen the emphasis on low-latency software layers, the application of multicomputer interconnection technology to distributed shared-memory multiprocessors and LAN interconnects, and the shift toward the use of commodity clusters and standard components. There is a continuing evolution toward powerful and inexpensive network interfaces, and low-cost, high-speed routers and switches from commercial vendors. The goal is to address the above issues in the context of networks of workstations, multicomputers, distributed shared-memory multiprocessors, and traditional tightly-coupled multiprocessor interconnects. The PCRCW '97 workshop presented 20 regular papers and two short papers covering a range of topics dealing with modern interconnection networks. It was hosted by the Georgia Institute of Technology and sponsored by the Atlanta Chapter of the IEEE Computer Society.

From reader reviews:

Sally Oneal:

What do you in relation to book? It is not important to you? Or just adding material when you require something to explain what your own problem? How about your time? Or are you busy particular person? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have time? What did you do? Every individual has many questions above. They have to answer that question because just their can do in which. It said that about book. Book is familiar on every person. Yes, it is proper. Because start from on jardín de infancia until university need this kind of Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) to read.

Lavinia Arthur:

Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) can be one of your basic books that are good idea. We all recommend that straight away because this publication has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but still delivering the information. The article writer giving his/her effort to put every word into satisfaction arrangement in writing Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) however doesn't forget the main stage, giving the reader the hottest as well as based confirm resource information that maybe you can be among it. This great information could drawn you into new stage of crucial thinking.

Omar Hinojosa:

The book untitled Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) contain a lot of information on the item. The writer explains her idea with easy method. The language is very easy to understand all the people, so do certainly not worry, you can easy to read that. The book was written by famous author. The author will bring you in the new era of literary works. You can actually read this book because you can continue reading your smart phone, or gadget, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can start their official web-site in addition to order it. Have a nice study.

Sandra Castillo:

Do you like reading a guide? Confuse to looking for your preferred book? Or your book was rare? Why so many issue for the book? But almost any people feel that they enjoy to get reading. Some people likes studying, not only science book and also novel and Parallel Computer Routing and Communication: Second

International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) as well as others sources were given expertise for you. After you know how the truly amazing a book, you feel need to read more and more. Science book was created for teacher or students especially. Those books are helping them to put their knowledge. In additional case, beside science book, any other book likes Parallel Computer Routing and Communication: Second International Workshop, PCRCW'97, Atlanta, Georgia, USA, June 26-27, 1997, Proceedings (Lecture Notes in Computer Science) to make your spare time more colorful. Many types of book like here.
